Gap Explanation:

After completing my **Bachelor of Science in Computer Science & Engineering** at the World University of Bangladesh in **December 2022**, I did not have a significant study gap. I immediately focused on transitioning into my professional career. In **January 2023**, I joined **Ajker Health Care** as an **IT Executive**, where I have been working to date. My responsibilities include managing the company's website, administering organizational databases, implementing cybersecurity measures, and providing IT support to ensure smooth business operations. This period has not been idle; rather, it has been a valuable phase of professional development. The role has allowed me to strengthen my technical expertise, gain hands-on industry experience, and develop workplace skills such as teamwork, problem-solving, and adaptability. These experiences have not only enhanced my confidence but also motivated me to pursue higher education to build advanced knowledge in my field. Therefore, there is no unexplained or unproductive gap in my academic and professional timeline, as my transition from graduation to full-time employment was immediate and career-focused.
